MANAGING TRIGGER

Aim:

To Create, View and Drop the Trigger.

Procedure:

Step 1: Create Trigger

```
CREATE OR REPLACE TRIGGER trg_set_admission_date
BEFORE INSERT ON student
FOR EACH ROW
BEGIN
IF :NEW.admission_date IS NULL THEN
:NEW.admission_date := SYSDATE;
END IF;
END;
/
```

Step 2: View Trigger

```
SELECT trigger_name, status FROM user_triggers;
```

Step 3: Drop Trigger

```
DROP TRIGGER trg_set_admission_date;
```

Output:

Result:

The trigger was created successfully. It was viewed and then dropped without errors.

IMPORT AND EXPORT

Aim:

To Import and export the database Table.

Procedure:
Step 1: To Import the Table

Prepare a text file with the data you want to import. For example:

S.NO	NAME	ID
1	Alice	
2	Bob	1
3	Charlie	1
4	David	2
5	Eve	2
6	Frank	3

Step 2: Load the Text File

Go to Utilities -> Data Load/Unload -> Load -> Load Text Data

Step 3:

1. In load data dialogue box, select New Table and Upload File
2. Then press Next
3. Choose the text file you created and in the separator type “\t”
4. Press next and enter the table name, press next -> Load Data

Step 4: Verify the table is imported

```
SELECT * FROM imported_table;
```

Imported_table is a table name which you provided before

Step 5: To Export the Table

Go to Utilities -> Data Load/Unload -> Load -> Load Text Data

Step 6:

- I. press next
- II. select the table you want to export.
- III. then press next
- IV. then in the separator field type “\t”.
- V. then press unload data

Output:

Result:

The Table is Imported and Exported successfully and verified.
